

U.S. Disaster Training Development and Delivery Workshop
 Russell Uyeno, Ph.D.
 National Disaster Preparedness Training Center
 Department of Urban and Regional Planning
 University of Hawaii

Topics

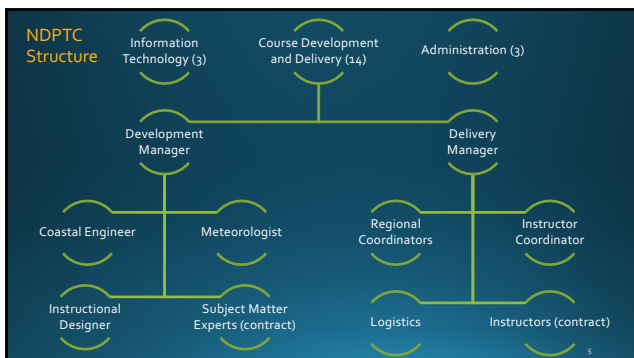

- Introduction
- Background of US government emergency management administration and training policy
- Training course development process
- Training course delivery process
- Review of sample courses
- Challenges and recommendations

Introduction

- University of Hawaii faculty administrator for 25 years
- Main teaching areas: tourism, education, quantitative research methods
- Current position: Associate Director, Instructional Systems Design and Training Delivery

- Established in 2008
- One of seven members of the National Domestic Preparedness Consortium
- Funded by U.S. Federal Emergency Management Agency (FEMA)
- Currently offer 21 certified courses across the U.S. to approx. 6000 participants.

National Domestic Preparedness Consortium

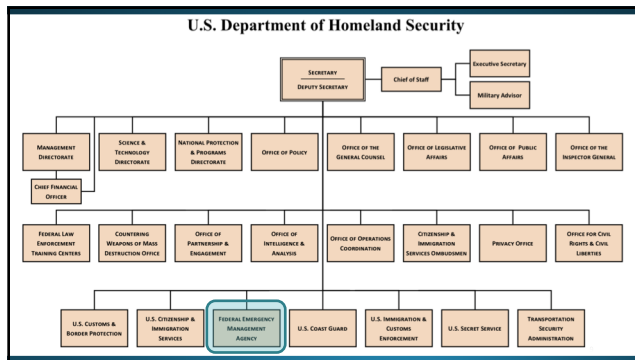

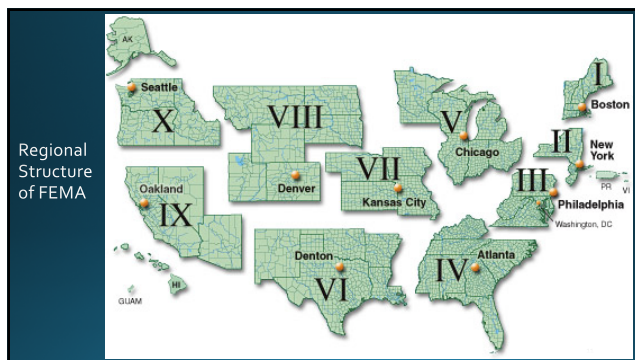

- Dr. Van Romero**
 Georgia Institute of Technology
 801 Leroy Pl., Atlanta, GA 30332
 Phone: 404-894-3012
vanromero@gatech.edu
- Dr. Karl Kim**
 National Disaster Preparedness Training Center
 University of Hawaii
 100 Post Street, Suite 220, Honolulu, HI 96813
 Phone: 808-956-3600
kim@ndptc.hawaii.edu
- Al Davis, NDPC Chair**
 National Emergency Response and Recovery Training Center / Texas A&M Engineering Extension Center
 University of Houston
 212 Technology Way, College Station, TX 77843-3603
 Phone: 832-793-2673
<http://www.ndpc.org/ndpc/>
- Jeff Mayne**
 Louisiana State University
 Graduate School of Education
 2101 Research Hall, Baton Rouge, LA 70803
 Phone: 504-782-6226
<http://www.ndpc.lsu.edu/>
- Leo Sibes**
 Center for Biological Nuclear Training
 At the Nevada National Security Site
 PO Box 99221, MS NEV-038, Las Vegas, NV 89151
 Phone: 877-963-3267
<http://www.ndpcntr.org/>
- Tony Russell**
 Center for Domestic Preparedness
 Of Regional Civil Authority, AL 36205
 Phone: 334-842-5212

National Structure of Training

- Institutional structure of emergency management
- Key agencies and policies
- General concepts of preparedness and resilience

Department of Homeland Security

- Established in 2002
- Reflected need for integrated agency to deal with all threats to US security after 9/11 attacks
- Represented one of the most significant reorganizations of the US government.
- Includes FEMA (Federal Emergency Management Agency), which was established in 1978.

Presidential Policy Directive-8

- PPD-8 was signed on March 30, 2011.
- Calls for inter-agency coordination and involvement of the whole community.
- Provides the structure for achieving preparedness and resilience.

"Whole Community"

- Individuals and families, including those with access and functional needs
- Businesses
- Faith-based and community organizations
- Nonprofit groups
- Schools and academia
- Media outlets
- All levels of government, including state, local, tribal, territorial, and federal partners

Whole Community Operationalized

- Involving people in the development of national preparedness documents.
- Ensuring the roles and responsibilities are reflected in the content of the materials (Very important for training courses.)

National Planning Frameworks

- The Frameworks describe how the whole community works together to achieve the National Preparedness Goal
- There is one Framework for each of the five mission areas: Prevention, Protection, Mitigation, Response, and Recovery
- The intended audience for the Frameworks includes individuals, families, communities, the private and nonprofit sectors, faith-based organizations, and local, state, tribal, territorial, and federal governments.

Core Capabilities

Core Capabilities are organized into five mission areas.

- Prevention
- Protection
- Mitigation
- Response
- Recovery

Prevention	Protection	Mitigation	Response	Recovery
Planning				
Public Information and Warning				
Operational Coordination				
Intelligence and Information Sharing	Interdiction and Disruption	Screening, Search, and Detection	Community Resilience	Infrastructure Systems
Forensics and Attribution	Access Control and Identity Verification	Risk and Disaster Resilience Assessment	Long-term Vulnerability Reduction	Critical Transportation
	Cybersecurity	Threats and Hazards Identification	Risk and Disaster Resilience Assessment	Environmental Response/Health and Safety
	Physical Protective Measures		Threats and Hazards Identification	Fatality Management Services
	Risk Management for Protection Programs and Activities			Fire Management and Suppression
	Supply Chain Integrity and Security			Logistics and Supply Chain Management
				Mass Care Services
				Mass Search and Rescue Operations
				On-scene Security, Protection, and Law Enforcement
				Operational Communications
				Public Health, Healthcare, and Emergency Medical Services
				Situational Assessment
				Economic Recovery
				Health and Social Services
				Housing
				Natural and Cultural Resources

National Incident Management System (NIMS)

- Guides all levels of government, NGOs, and the private sector to work together to prevent, protect against, mitigate, respond to, and recover from incidents
- Provides stakeholders across the whole community with the shared vocabulary, systems, and processes to successfully deliver the capabilities described in the National Preparedness System.

National Incident Management System (NIMS)

- Defines operational systems including the Incident Command System (ICS), Emergency Operations Center (EOC) structures, and Multi-Agency Coordination Groups (MAC Groups) that guide how personnel work together during incidents.
- Applies to all incidents, from traffic accidents to major disasters.

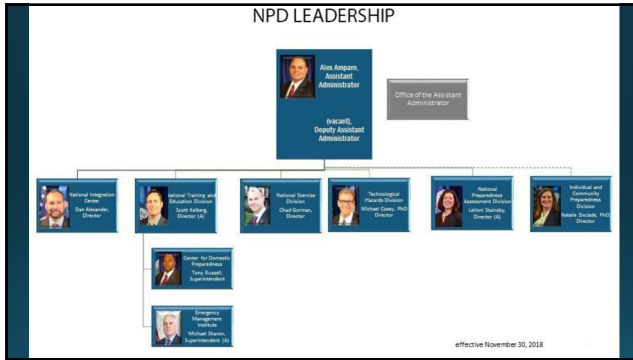

National Response Framework (NRF)

The NRF establishes a single, comprehensive approach to domestic incident management. The NRF is used to prevent, prepare for, respond to, and recover from terrorist attacks, major disasters, and other emergencies. It is an all-hazards plan built on the template of the National Incident Management System (NIMS). The NRF provides the structure and mechanisms for national-level policy and operational direction for domestic incident management.

National Preparedness Directorate

The National Preparedness Directorate (NPD) provides the doctrine, programs, and resources to prepare the Nation to prevent, protect, mitigate, respond to, and recover from disasters while minimizing the loss of lives, infrastructure, and property.

National Training and Education Division (NTED)

Leads the development and delivery of training and education for first responders, emergency managers and the public through a multi-disciplinary, data-driven learning approach and partnerships with higher education institutions.

National Training and Education System

- Collect and analyze data on training and education requirements and use that analysis to inform decisions on funding, programming, and course design and delivery;
- Promote individual competency areas to build workforce capacity and ensure continuous development of education programming;

National Training and Education System

- Use training and education to build and sustain capabilities that address a community or organization's priority threats and hazards; and
- Coordinate and collaborate across the whole community to build Communities of Practice that share information and resources to address training and education requirements.

Emergency Management Institute

Mission: To support the Department of Home and Security and FEMA's goals by improving the competencies of the U.S. officials in Emergency Management at all levels of government to prepare for, protect against, respond to, recover from, and mitigate the potential effects of all types of disasters and emergencies on the American people.

Center for Domestic Preparedness

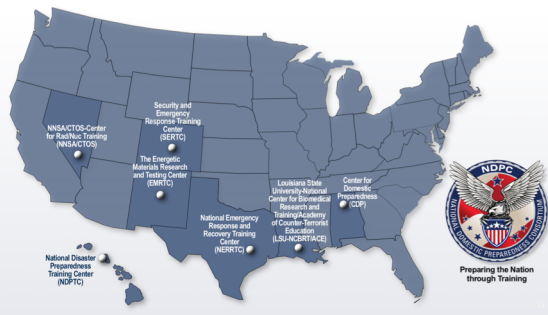

The Center for Domestic Preparedness provides advanced all-hazards training to approximately 50,000 emergency responders annually from state, local, tribal, and territorial governments, as well as the federal government, foreign governments, and private entities, as available. The scope of training includes preparedness, protection, and response.

National Domestic Preparedness Consortium

- Established by Congressional Mandate Sept 1998 to address urgent counterterrorism preparedness need
- Reconfirmed in Public Law in 2001
- Shifted to catastrophic all-hazards events
- Re-authorized in Homeland Security Legislation Jan 2007 and expanded membership to seven

Map of Partners Location

Training Development

Disciplines Served by NTED

- Emergency Management Agency (EMA)
- Emergency Medical Services (EMS)
- Fire Service (FS)
- Governmental Administrative (GA)
- Hazardous Materials Personnel (HZ)
- Healthcare (HC)
- Law Enforcement (LE)
- Public Health (PH)
- Public Safety Communications (PSC)
- Public Works (PW)

NTED Course Levels

NTED offers courses at different levels to accommodate different job functions of the first responder community.

- Awareness
- Performance
- Management & Planning

37

NTED Delivery Modes

- Resident: At the training provider's own facility.
- Mobile: At or near the location of the agency that requests the training.
- Online: This self-paced training is delivered in an asynchronous format via a computer and internet connection.

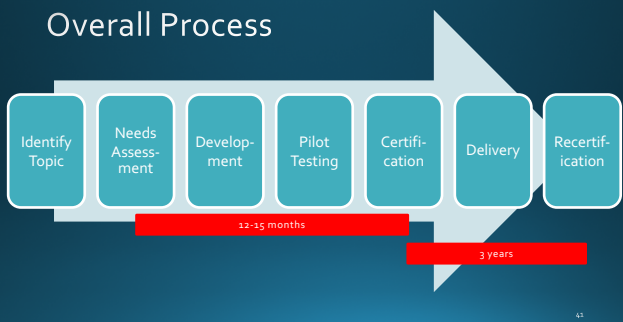

38

Importance of Instructional Design

- Instructional design is the primary mechanism that FEMA/NTED uses to ensure consistency and quality among its courses.
- All training providers are required to have an instructional design professional on staff.
- Instructional design also ensures that courses comply with legal requirements, especially related to disability access.

39

Overall Process

41

FEMA Review Process

42

Needs Assessment

- Is the course aligned with core capabilities etc?
- Who are the stakeholders and what is their perspective on the course?
- How does the course address current training gaps?
- How are those gaps currently being met?
- Does the course support FEMA's mission?

43

Appendix A: UTNA Assessment Tool

Activity Label	Activity Guide
1 Identify Topic and Reason for Assessment Before proceeding, conduct a review of completed UTNA's to determine if the topic has been assessed.	Topic (e.g., Evaluation for Catastrophic Disasters) <input type="checkbox"/> Scheduled/Cyclical Review (When available, include official course number and title) <input type="checkbox"/> Training Evaluation Reports (e.g., Level I, II, III) <input type="checkbox"/> New Training requirements and proposals (e.g., guidance from White House, Congress, DHS, THIRA/NFR Analysis, National Preparedness Report or other authority) <input type="checkbox"/> Change in Standard(s) to an existing course/program (e.g., National Fire Protection Association) <input type="checkbox"/> Incident/Event to Include Exercise Preparation or Operational Lessons Learned results <input type="checkbox"/> Agency or Inter-Agency Reports (e.g., Interagency Board (IAB), Training and Exercises Subgroup) <input type="checkbox"/> Private Sector Survey/Report <input type="checkbox"/> Other, such as Media Report(s)

44

Course Mapping Tool

The screenshot shows a web-based form for course details on the left and a large grid on the right. The grid has columns for 'Enabling Learning Objectives (ELO)', 'Core Capability', and 'Mission Area (Problem)'. The grid is currently empty, with only the headers visible.

Training Delivery

45

Course Number	Course Name	Start Date	End Date	City	State	Training Provider
PER-246	Primary Screener Backpack Basic Course	05/17/2018	05/17/2018	Brooklyn	NY	NTS
MGT-458	Building Whole Community Engagement through Local Emergency Planning Committees	05/17/2018	05/17/2018	Spanish Fork	UT	GTRI
MGT-384	Community Preparedness for Cyber Incidents	05/17/2018	05/18/2018	Gresham	OR	TEEX
MGT-418	Readiness: Training Identification and Preparedness Planning	05/17/2018	05/18/2018	Bethpage	NY	LSU
PER-340	Active Threat Integrated Response Course (ATIRC)	05/17/2018	05/17/2018	Union City	NJ	LSU
AWR-325	Site Protection and Document Screening Techniques	05/17/2018	05/17/2018	Brooklyn	NY	LSU
AWR-130-2	Incident Response to Terrorist Bombings - Awareness, Indirect Delivery	05/18/2018	05/18/2018	Madison	WI	NMT
PER-334	Search and Rescue in Community Disasters	05/18/2018	05/19/2018	Guyton	GA	TEEX
AWR-325	Site Protection and Document Screening Techniques	05/18/2018	05/18/2018	Brooklyn	NY	LSU
PER-211	Medical Management of Chemical, Biological,	05/19/2018	05/20/2018	East	CT	TEEX

Training Costs

NTED training partners deliver training no cost to the individual or the individual's jurisdiction or agency in some circumstances funds may be used for overtime and backfill costs for those individuals attending NTED courses.

(Sometimes this poses complications in setting up deliveries.)

48

Instructors

- The best instructors have both practical experience and expertise in the content.
- This is difficult to find, so we often pair two instructors who have different strengths.

49

Adult Education

- FEMA emphasizes instructional technique for adult education (not academic).
- Recently, there has been a strong focus on instructor development.
- Instructors for pilot deliveries are carefully evaluated (in addition to the content).

90

Key Role of SAAs

- Because training is free, FEMA State Administrative Agencies (SAAs) have important responsibilities.
- They also provide feedback on what courses are being requested.

51

Academic Initiative

- One of our objectives is to integrate training into academic programs.
- We have developed several "POD" (points of delivery) agreements with universities.

52

Issues and Challenges

53

Course Development Challenges

- Managing expertise
 - On-staff versus contract-based subject matter experts
 - "Ownership" of the course
- Updating contents
 - Rapidly changing technology (i.e. social media, disaster communications)
 - Rapidly changing regulatory environment (e.g. UAV)
- Meeting FEMA review and design guidelines
 - Section 508 (disability) compliance

54

Course Delivery Challenges

- Insufficient budget to meet demand
- Logistical demands of nationwide delivery
 - How to maintain consistency of classroom faculty?
- Maintaining instructional consistency
- Maintaining instructor excellence
- Meeting diverse participant expectations
- Maintaining no-fee access

55

General Challenges

- What is the best organizational structure to balance efficiency and creativity in course development?
 - Cannot afford a SVEs on staff so need generalists in specific areas
- How can we integrate training into academic programs?
- The political context of disasters and training
 - Prioritization of human-caused (vs natural) disasters

56

Mahalo!

- I hope this information will be helpful to you.
- Please contact me if you have any questions or if I can assist you in any way.
